

Gaurav Salunke

Web Developer

👤 Profile

I'm a second-year Computer Science student at RCPIT, Shirpur, with a growing passion for web development. I've worked with HTML, CSS, JavaScript, and have started exploring React as well. I'm also comfortable using MS Excel for organizing and managing data. I enjoy taking initiative—I'm an active member of the Akatsuki Coding Club and currently serve as the Management Head of the Reflection Club. Along with tech and management, I genuinely love public speaking and being on stage—it's something that excites me just as much as coding. I enjoy learning new skills, working with driven teams, and stepping up whenever there's an opportunity to contribute or lead.

🎓 Education

Hsc board, Dr. V. V. Randhe English medium of shirpur, Shirpur

🏆 Extra-curricular activities

Tutor, Shirpur

April 2025 — April 2025

- Taught JavaScript and TypeScript fundamentals to over **100 Computer Science students** in the React Bootcamp.
- Covered essential topics like variables, loops, functions, and TypeScript basics.
- Provided one-on-one support, helping students debug code and build small projects.
- Collaborated with fellow mentors to structure the course and prepare beginner-friendly learning materials.
- Fostered a collaborative learning environment by answering student questions and encouraging peer-to-peer support.

Managment

- **Event Management:** Successfully planned and executed key events like **Freshers Party, Garba Night, Flashmob, and Reflection 2K25** by coordinating teams, handling logistics, and managing budgets.
- **Team Collaboration:** Led and worked closely with cross-functional teams to ensure smooth event execution, assigning tasks, tracking progress, and fostering a collaborative atmosphere.
- **Problem Solving & Adaptability:** Addressed unforeseen issues, such as last-minute changes in schedules or venue requirements, and adapted plans to meet event goals.
